Resources

Clubs are facing challenging times as they navigate the day-to-day operations while facing the COVID-19 crisis. From closed operations, increased absenteeism, flexible work schedules, cancelled events, NCA is working to provide club leaders with resources they need to operate during this unprecedented time.

Reopening

- Field Guide for Camps on Implementation of CDC Guidance, American Camp Association and YMCA of the USA
- COVID-19 Reopening Fitness Facilities and Return to Play Resources, American College of Sports Medicine
- Considerations for Public Pools, Hot Tubs, and Water Playgrounds During COVID-19, CDC
- Golfers Need to Mind the Curve to Keep Courses Open, Club + Resort Business
- How is the Pandemic Affecting the Food Supply, Restaurant Business (podcast)
- Back-to-Work Safety Guidelines and Resources, American Industrial Hygiene Association

What’s The Path Ahead?

- H.R. 6800, The HEROES Act is a piece of legislation that has only passed the House
- Republicans have dismissed as a wish list

- Senate Republicans working on their own plan
  - Liability reform
  - State and local funding
  - PPP changes (unsure about 501(c) at the moment)
  - Bonus payments to return to work

- Administration economist said Monday another bill may not be needed
- If there is another package they will be two very different bills
- Negotiations will be lengthy and perhaps unpleasant
- Early to mid-June before anything happens

YOUTH PROGRAMS AND CAMPS DURING THE COVID-19 PANDEMIC

The purpose of this tool is to assist directors or administrators in making (re)opening decisions regarding youth programs and camps during the COVID-19 pandemic. It is important to check with state and local health officials and other partners to determine the most appropriate actions while adjusting to meet the unique needs and circumstances of the local community.

Should you consider opening?
✓ Will reopening be consistent with applicable state and local orders?
✓ Are you ready to protect children and employees at higher risk for severe illness?
✓ Are you able to screen children and employees upon arrival for symptoms and history of exposure?

Are recommended health and safety actions in place?
✓ Promote healthy hygiene practices such as hand washing and employees wearing a cloth face covering, as feasible.
✓ Intensify cleaning, disinfection, and ventilation of facilities and transport vehicles/buses.
✓ Encourage social distancing through increased spacing, small groups, and limited mixing between groups, and staggered scheduling, arrival, and drop off, if feasible.
✓ Where feasible, adjust activities and procedures to limit sharing of items such as toys, belongings, supplies, and equipment.
✓ Train all employees on health and safety protocols.

Is ongoing monitoring in place?
✓ Develop and implement procedures to check for signs and symptoms in children and employees daily upon arrival, as feasible.
✓ If feasible, implement enhanced screening for children and employees who have recently been present in areas of high transmission, including temperature checks and symptom monitoring.
✓ Encourage anyone who is sick to stay home.
✓ Plan for if children or employees get sick.
✓ Regularly communicate and monitor developments with local authorities, employees, and families regarding cases, exposures, and updates to policies and procedures.
✓ Monitor child and employee absences and have a pool of trained substitutes, and flexible leave policies and practices.
✓ Be ready to consult with the local health authorities if there are cases in the facility or an increase in cases in the local area.

Basic Criteria for Opening Camp or Junior Program

• Has the stay-at-home order in your state/county been eased enough so that your members are using your club (even with limited capacity)? In other words, are members ‘around’?

  Is your indoor dining open for at least 25% capacity?
  Are golf operations open enough to allow sessions without bothering the ‘regulars’?
  Are tennis operations open enough to allow sessions without bothering the ‘regulars’?

• Is the pool operational in some capacity?

  If yes, are there restrictions?
  If you typically have lifeguards, are they back to work and certified?
  Are there food operations available at the pool?
Basic Criteria for Opening Camp or Junior Program

• Is your state in a phase that is allowing childcare to be allowed even if it’s in smaller groups?
  
  *If yes, Do you feel we will have sufficient space indoors if we are mandated to have smaller groups that need to be separated?*

• Do you have enough maintenance staff to effectively clean our camp space each evening?
KE Camps Covid-19 Policies and Updates (in a nutshell)

The following information will be posted on our website and emailed to camp families in a detailed, yet digestible manner (we will send you a “flyer” detailing this information as well). For your information, we want you to know the key points now:

- Upon entry to camp, each camper and staff will do the following:
  o Temperature Check via non-contact thermometer – anyone with a temperature of 100.4 or more will be asked to return home
  o Visual Health Check to look for signs of illness like cough, runny nose, etc.
  o Sanitize their hands
- We will think of our camp as its own unit – within our unit, we will do our best to organize activities to keep physical distancing in place as much as possible. However, there are undoubtedly going to be parts of our camp day when campers and staff will end up being less than 6ft apart. During these times, staff will be wearing a friendly cloth face mask. *Face Mask Policy subject to easing as time goes by and certain restrictions are lifted.*
- Handwashing and/or Sanitizing to take place:
  o Upon entry to camp
  o Before and after Snacks and Lunch
  o After using the restroom
  o As needed
- Extra cleaning of indoor camp surfaces
- Program Adjustments to enjoy activities outside as much as possible
- Clear instructions to Camp Families (in pre-camp emails, etc.,) for anyone feeling ill to remain home
